Safety & Enviroment

Port Security

All our Cruise port facilities are ISPS certified

- Port facility is fenced off and security checked prior to each arrival
- Security guards on site while ship is present at port facility
- Minimum two security guards area on duty
- At passenger turnaround, more guards are called in.

It is strictly prohibited to open fence gates unless port security is present

- Extra guards are added on duty if additional gates are needed for example at turnaround

Access control at terminals

Guests and provisions need to be noticed in advance

Provisions

- Drivers need to announce their presence in terminal
- Port security will control access through gates

Manned guarding on site and CCTV accessible on site and remote

Mandatory baggage screening at all turnarounds in Skarfabakki and Korngarður

Port security overview
